

# SPAM FILTERING & VIRUS PROTECTION

SOLUTIONS BY ALPHA TECHNOLOGIES

Unwanted Spam can clog your mailbox, annoy you, consume your valuable company bandwidth, slow down your internet speed, & flood your system to the extent that you have denial of service.

Viruses attached to emails can infiltrate your computers, servers and network and cause loss of production, malicious damage to your data, and vast amounts of company havoc. Rectification can be untimely and very expensive to correct. Alpha has the solution.
