

CISCO IP TELEPHONY

SOLUTIONS BY ALPHA TECHNOLOGIES

Communications has come a long way. Face to Face. Drums. Smoke Signals. Tin Cans and String. Flashing Lights. Morse Code and Alexander Graham Bells Invention, the Telephone. Since then, the Internet was invented along with the advent of IP Addressing. IP means Internet Protocol. Today, Cisco has set the STANDARD in Voice IP Communications along with high resolution phone displays and feature rich Cisco Unified Communications Systems provide the capability to integrate your Voice Communications System, with your Cisco Voice Mail Communications (Cisco Unified Messaging) along with Presence.

See quickly if your co-workers are available before you contact them. Type a quick Instant Message securely within your organization from your desktop computer to theirs. Alpha Technologies has installed literally thousands of these IP Phones. We are authorized by Cisco.
